

AXON Retail Line

An intelligent design for a greater experience.

Petrotec

RETAIL LINE

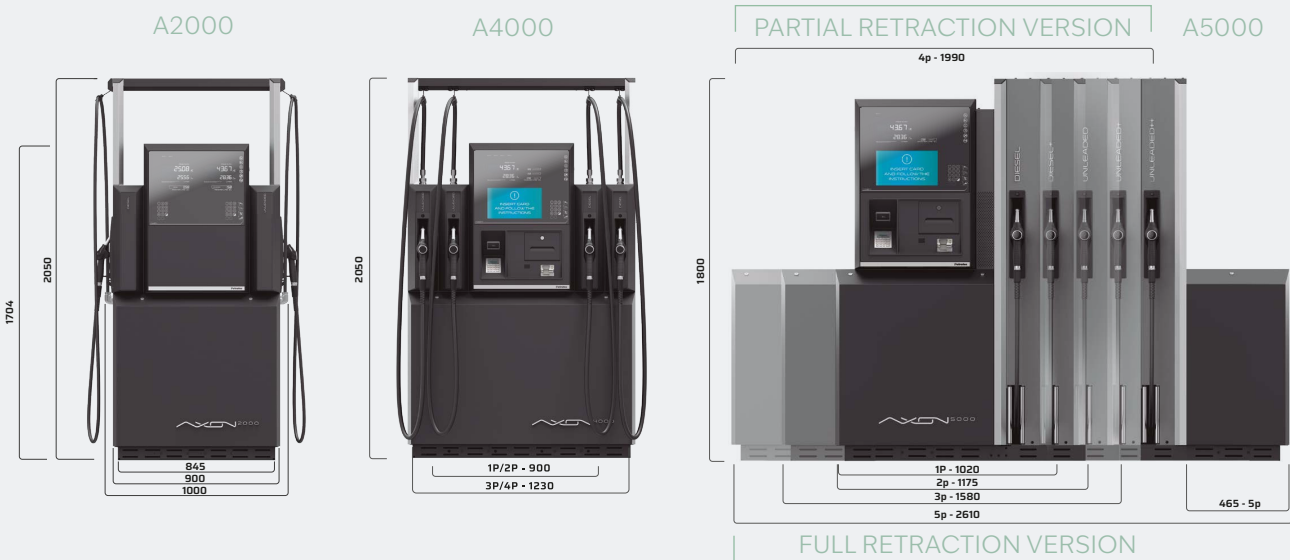

MEET THE AXON RANGE
Multiple configurations in a global platform to better address your needs.

GREAT RELIABILITY AND ROBUSTNESS
Beautifully crafted inside and out, AXON dispensers exhibit a sleek and compact construction while maximizing brand area visibility, adding an improved look to the forecourt. Built to last in the most challenging environments, the new range also displays improved electronics and enhanced metering, protected behind premium stainless steel and tempered glass.

TAILORED TO YOUR NEEDS
Highly flexible and configurable, the AXON Retail Line can be further tailored to your needs, allowing the addition of multimedia display (13.3"), payment terminals, vapor recovery, monitoring and ATC.
Most possibilities can be installed at a later stage, according to your business requirements and growth.

ENHANCED SERVICEABILITY
All AXON retail models allow an effortless access to its mechanical and electronic parts, enhancing serviceability and upgrade capabilities, key aspects to your business.

DIMENSIONS

TECHNICAL SPECIFICATIONS	A2000	A4000	A5000 (Partial hose retraction)	A5000 (Full hose retraction)
Max. N° Sides	2	2	2	2
Max. N° Displays/Side	2	1	1	1
Max. N° Filling Points	2	2 (or 4 in version 2P)	2	2
Max. N° Products	2	4	4	5
Max. N° Hoses	2	8	8	10 / 12 (with AdBlue)
Hose Length (mts)	4	3,6	3,4	4,1
Oriented Hoses / Nozzles Island	Island	Lane	Lane	Lane
Hose Retraction	Partial	Partial	Partial	Full
Admission	Admission Suction (not available with LPG and AdBlue) and Pressure			
Calibration and Display	Electronic Calibration (head), Price Volume Display, Unit Price Display			
Flow rate (l/min)	(Adblue) - 10 l/min, (Gasoline; Diesel, Biodiesel or Adblue) - 40 l/min, (Diesel / Biodiesel / HVO) - 80 l/min (Diesel / Biodiesel / HVO) - 130 l/min (LPG) - 60 l/min (only in A2000 and A5000 Full Retraction)			
Products	Petrol, Diesel, Biodiesel, Biodiesel Blends, Ethanol [E85] LPG (For A2000 and A5000 Full Retraction) AdBlue (without heating in A2000, A4000 and A5000 Partial Retraction)			
OPTIONS				
Hydraulic Options	Satellite Ready (only available one per side), Breakway Couplings, Custom Nozzles and Satellite, Flexible Riser Connection			
Structure Options	Stainless Steel AISI316, Foundation Frame, Custom Corporative Image, Lifting Solution (for easier handling).			
Options	Speed Selector (40/80 L/min) • Voice Module • Electromechanical Totalizers • Volume Preset • Amount Preset • Circuit Breaker • Electronics Head Heating • Vapour Recovery Stage II • Vapour Recovery w/ Monitoring • Automatic Temperature Compensation • Three-Phase Motor • Single-Phase Motor (only available until 80l/min) • OPT (integration with wide range of terminals) <i>EMERGENCY BUTTON:</i> Feature providing additional filtration capability for our equipment.			
Environmental Conditions	Environment classes: M2 / E1, Temperature Range Liquid: -10°C / +50°C, Temperature Range Ambient: -20°C / +55°C			

A2000 COMPACT

A COMPACT FRAME
WITH UP TO 2 FUEL
GRADES AND 2
HOSES.

Sharing the same enhanced electronics, improved hydraulics and premium construction and materials as the larger models, the AXON A2000 is the right choice for those who are looking for high performance, with limited space availability at the forecourt.

UP TO 4 HOSES

UP TO 8 HOSES

A4000 FLEXIBLE

WITH A SOLID
COMMON UNIBODY
FRAME YOU CAN
FULLY ADAPT IT TO
YOUR NEEDS WHILE
KEEPING A SMALL
FORM-FACTOR.

Built from premium materials that enhance longevity, reduce maintenance needs, and ensure reliable performance in demanding environments.

The A4000 is the appropriate choice for those looking for full features and multiple configurations.

A5000 SCALABLE

The most customizable unit of the range. Available with 2 hose systems, it displays up to 5 fuel grades and 10 hoses*, including alternative products, like LPG and AdBlue (with heating)**. All media / payment system options are available.

It represents the perfect choice for those who are looking for an adaptable dispenser that can keep up with the challenges of their business.

* Up to 12 hoses with AdBlue.

** 5 fuel grids / 10 (12) hoses and AdBlue (with heating) options only available for the full hose retraction alternative.
